- SteamGlide Elite soleplate for ultimate gliding performance
- 1.8L detachable water tank for easy refilling
- Easy De-Calc to extend the lifetime of your iron
- Automatic shut off when iron is left unattended
- Safe carry lock for safe and easy transport

Highlights

Intelligent automatic steam

Our new motion sensor knows exactly when the iron is moving on your clothes, and delivers powerful steam automatically. Relax and enjoy effortless ironing, while the iron does the steaming for you.

OptimalTEMP

Achieve great results with one ideal temperature with OptimalTEMP, no burns guaranteed*

Ultra-powerful steam

Strong, continuous steam for effective crease removal of even the most stubborn creases on the thickest fabrics.

Light weight iron

The iron is amazingly light and comfortable to handle, gliding easily and reducing wrist strain. Its minimal weight of only 800g also makes it easy for vertical steaming of curtains and hanging clothes.

SteamGlide Elite soleplate

SteamGlide Elite is our best soleplate for ultimate gliding performance and maximum scratch resistance. Its stainless steel base is

twice as hard as a regular aluminum base, and our patented 6-layer coating with advanced titanium layer, glides effortlessly for the fastest results.

1.8L detachable water tank

The 1.8-liter transparent water tank gives you up to 2 hours of continuous use. When the water tank is empty, you will be reminded by the indicator light to refill at any time which you can easily do under the tap through the large filling door.

Easy De-Calc

Regular descaling protects your iron, extends its lifetime and ensures the best steam performance. Our exclusive Easy De-Calc system collects limescale continuously with an indicator light to tell you when it needs emptying. Simply remove the plug and let the water and scale particles flow out.

Auto-shut off

Auto-shut off to save energy and for peace of mind.

Safety carry lock

Lock your iron securely to the base station for easy carrying around the house and to reduce the risk of accidentally touching the hot soleplate.
