- Natural Response Nipples and Bottles are BPA free*
- ultra air pacifier, light and breathable

Vents air away from your baby's tummy

- Designed to reduce colic and discomfort

Finding the right nipple is important

- Finding the right nipple is important

Highlights

Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

Finding the right nipple is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a

nipple with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

No-drip nipple

The nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

Natural latch on

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Easy to hold

The ergonomic bottle is easy to grip at any angle to give maximum comfort during feeding. Easy for your hands and tiny hands to hold.

ultra air pacifier

Soothe your baby with a pacifier that lets their skin breathe. The ultra air pacifier has extra large holes to keep skin dry and its lightweight shield allows for maximum air flow.

Specifications

Material
