- Nipple releases milk when baby actively drinks

### Other benefits

- Choose the right nipple flow for your baby
- No-drip nipple design prevents spills and lost milk
- Easy to hold even for little hands
- Simple to use, easy to clean and quick to assemble
- Fast bottle warmer, heats quickly and evenly
- Microwave steam sterilizer bags, easy and fast sterilization
- Sealing discs, for easy milk and food storage
- Snuggle pacifier holder, baby's first friend
- One piece, silicone Soothie pacifier helps calm babies

### Vents air away from your baby's tummy

### Finding the right nipple is important

# Highlights

## Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

## Natural latch on

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

## Finding the right nipple is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a

nipple with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

## Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

## No-drip nipple

The nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

## Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

## Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

## Easy to hold

The ergonomic bottle is easy to grip at any angle to give maximum comfort during feeding. Easy for your hands and tiny hands to hold.

## Fast bottle warmer

The bottle warmer is fast and easy to use. By circulating the milk continuously as it warms, hot spots are prevented. As well as baby bottles, you can also use the bottle warmer to gently warm baby food.
