IPL hair removal: enjoy smooth skin every day

Philips Lumea IPL hair removal system works wonders to prevent the reappearance of hair on face as well as body. Gentle pulses of light, applied regularly, keep skin silky-smooth every day.

Long lasting smoothness

- Effortlessly effective
- Enjoy smooth skin every day

Hair removal with IPL technology

- Adapted for safe use in the comfort of your own home
- Suitable for a wide variety of hair and skin types

Gentle and effective application for face and body

- Slide and Flash mode for a more convenient application
- Precision attachment for safe facial treatment
- Bigger body attachment for fast treatment
- Five adjustable light energy settings
- Safe and effective even on sensitive areas

Maximum freedom, minimum hassle

- Cordless convenience
- No replacement parts, no hidden costs

Highlights

Effortlessly effective

Our clinical studies have shown significant hair reduction in as little as four bi-weekly treatments resulting in smooth hair free skin. To maintain these results, simply repeat the treatment when needed. Time between treatments may vary based on your individual hair regrowth.

IPL technology

Philips Lumea uses an innovative light-based technology called IPL (Intense Pulsed Light), derived from the technology used in professional beauty salons. Philips has adapted this technology for safe and effective use in the comfort of your own home. Philips worked closely with leading dermatologists to develop our breakthrough hair removal system. For more than 10 years we carried out extensive consumer research with more than 2000 women.

Suitable hair and skin types

Philips Lumea works effectively on (naturally) dark blonde, brown and black hairs. As with other light-based treatments, Philips Lumea is NOT effective on red, light-blond or white/grey hair. Philips Lumea is also NOT suitable for very dark skin.

Five light energy settings

Philips Lumea has five adjustable light energy settings to ensure gentle but effective treatment. Used correctly, Philips Lumea's IPL treatment is safe and gentle to use even on sensitive skin and sensitive body areas.

Application areas

Use with confidence to remove hair on face (upper lip, chin and sideburns) and body parts including legs, underarm, bikini area, stomach and arms.

Cordless convenience

Lumea's unique cordless design is perfect for maximum reach and ease of use.

Extra safety for the face

The precision attachment is equipped with an extra integrated light filter and enables a safe and convenient application on the upper lip, chin and sideburns. It can also be used on other sensitive areas on the body, such as the underarms, the bikini area and hard-to-reach areas.

Specifications

Power

Voltage: 100-240 V
