A light, breathable pacifier

Extra-large air holes let your baby's skin breathe

Soothe your baby with a pacifier that lets its skin breathe. The Philips Avent ultra air has extra large holes to keep skin dry. Its lightweight shield is designed for maximum air flow. Available in various colors and designs.

Keeps baby's skin soft and dry

- Lets skin breathe

Sterilize and store in one handy case

- Sterilize and store in one handy case

Silky nipple for extra comfort

- Loved by babies worldwide*
- The ideal texture for a feeling of comfort
- Respects the natural shape of palate, teeth and gums

Highlights

Extra ventilation

Extra large air holes gently ventilate your baby's skin, keeping it soft and dry.

Silky nipple

Everything about the ultra air pacifier is designed to feel light and comfortable, including the silky nipple.

98% nipple acceptance*

When we asked moms how their little ones respond to our textured silicone nipples, on average 98% said that their baby accepts Philips Avent ultra soft and ultra air pacifiers.

Healthy oral development

Look after your little one's oral development with a symmetrical nipple that respects the natural shape of their palate, teeth and gums.

Easy sterilization & storage

The ultra air travel case doubles as a sterilizer, so all you need to do is add some water and pop it in the microwave. Then rest easy that it's clean for the next use.
