 Product Picture

Clinically proven to reduce colic and discomfort*

Designed to reduce gas

Our anti-colic bottle's Airflex venting system and textured nipple is designed to minimize feeding interruptions and discomfort. With its integrated anti-colic valve, air is vented into the bottle and away from the baby's tummy.

Other benefits

- Compatible with Anti-colic range
- Compatible range from breastfeeding to cup
- Different nipple flow rates available
- Use your bottle with or without the AirFree vent

Clinically proven to reduce colic and discomfort*

- Anti-colic system proven to reduce colic*
- 60% less fussing at night*
- Nipple shape designed for secure latch
- Ribbed texture prevents collapse for uninterrupted feeding

Easy to use, clean and assemble

- Easy to assemble with only fewer parts
- Wide neck bottle with rounded corner for easy cleaning
- Easy to hold
- Leak-free design

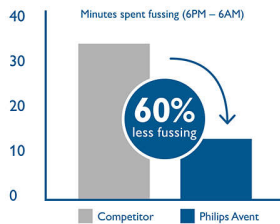

Highlights

Less colic

Our clinically proven Airflex venting system is designed to reduce gas and colic. As your baby feeds, the valve integrated into the nipple flexes to allow air into the bottle to prevent vacuum build up and vents it towards the back of the bottle. It keeps air in the bottle and away from baby's tummy to help reduce gas, spit-up and burping.

Less fussing

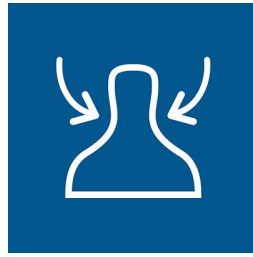

Philips Avent anti-colic bottle reduces fussing. Babies fed with Philips Avent anti-colic bottles experienced 60% less fussing at night, than babies fed with a leading competitor's vented bottle. *

Uninterrupted feeding

The nipple shape allows secure latch and the ribbed texture helps prevent collapse for uninterrupted, comfortable feeding.

Secure latch

The nipple is designed not to collapse, for a secure latch and uninterrupted feeding.

Leak-free

Our anti-colic bottle is designed to prevent leakage whilst feeding, for a truly enjoyable feeding experience.

Easy to assemble

Our Anti-colic bottle has fewer parts for quick and simple assembly.

Easy to hold

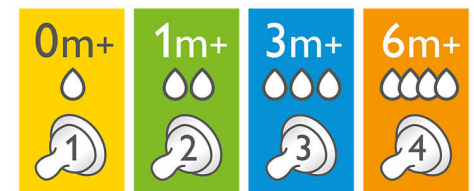

The unique bottle shape makes this bottle easy to hold and grip in any direction.

Easy to clean

With its wide neck and fewer parts, our bottle is easier to assemble and to clean quickly and thoroughly.

Fits your baby's growing needs

The Philips Avent Anti-colic bottle range offers different nipple flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All nipples are available in twin packs: Newborn, Slow, Medium, Fast and Variable Flow.

Freedom of choice

You can use your Philips Avent Anti-colic bottle with the AirFree vent. The AirFree vent is available to purchase separately and is compatible with all of our Philips Avent Anti-colic bottles.
