# Highlights

# **Natural Motion Technology**

The innovative silicone flange - inspired by baby's unique suckling action - stimulates the nipple to help start your milk flow, fast. For comfortable and effective expression.

## **Adapts to your nipples**

One size fits all. Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your unique anatomy. Fits 99.98% of all nipple sizes\* (up to 30mm).

#### Finding the right nipple is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a nipple with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

#### Portable and easy to use

The breast pump is small and lightweight, which means it is easy to store and transport, making pumping on-the-go simple and discreet.

#### Fast milk release

A unique, portable manual breast pump – ideal for mothers who need to gently release their milk while away from home, or before breastfeeding.

#### **Suction and flow control**

suction to suit your needs, comfort and milk flow.

# Sit comfortably

Relax and sit comfortably while you express thanks to our design that lets you sit upright, rather than having to lean forward.

## Easy to clean and set up

Because there are only a few parts, our new pump is easy to set up and clean.

#### **Express and feed**

To feed using your expressed milk, simply attach the soft nipple to the bottle container. To store your milk for feeding later on, close the bottle using the sealing disc.

## Find the right nipple flow
