- 3D facial contour design based on 23,000 *Chinese face data
- Golden anchor point, effectively disperses the pressure
- 3D laser precision cutting, build your own V line shape

N95 level protection *

- Filter out 95% PM2.5, pollen* & 99% bacteria
- UPF 50+ Anti-UV protection

Highlights

Every breath is fresh*

Powered by powerful module customized by Japanese supplier Nidec (Fan air flow rate could up to 41 L/min), The incredible motor power and air fluid dynamics design greatly reduce the exhalation resistance and improve the breathing comfort.

The mask that can breathe

Selected from thousands of high quality material, Air mesh guarantees your incredibly comfortable breathe comfort. The delicate grille pattern on the cover were scientifically designed to enable enough fresh air coming through but not the pollutants. With its high permeable quality which also achieve good balance between robustness elasticity, through thermo foaming processing to deliver the unprecedented breathing experience to you.

Golden anchor point

The "golden anchor point" defined by the Philips laboratory through scientific analysis of Asian facial data to effectively disperses the pressure of the mask on the bridge of the nose, cheeks and ears.

Your everyday fashion icon

3D laser precision cutting, more conform to the contours of the face, Ingenious V-shaped curve lifting face shape, creating a perfect V line visual impact.

We take care of you

Up to US N95 level of protection to filter out 95% PM2.5, 99% bacteria and 95% of pollen that triggers huge discomfort.

Perfectly fit for your face

Designed by extraordinary European designer team, based on 23,000 pieces of Chinese face data, three-dimensional beauty mask was built to fit Chinese face.

Throw away your umbrella

UV light can be critical to age your skin. Wearing sunglasses protects only your eyes, while holding umbrella is a big hassle. UPF 50+ level protection is provided to help you get rid of the UV light.

Specifications

Design

Color: Lychee Pink Shell + Rose Metallic Cover

* This is based on Philips internal lab result, only calculated for fan itself.

* Based on GB / T2428 / 1998 and Philips internal facial data

* With reference to the test conditions of the United States NIOSH and the Philips corporate standard, they are tested and certified by a third-party laboratory.

* Pollen's size ranges from 15 to 200 µm (E. Pacini, Encyclopedia of Ecology 2008). N95 filter has minimum efficiency (=95%) at the most penetrating particle size (=0.1-0.3 µm).

* This is based on third party test report, calculated by Philips internal lab.
