## Cleaner teeth. Gently does it.

Remove up to 10x more plaque than a manual

Feel the difference of a gentle clean with our Pressure Sensor while removing up to 10x more plaque than a manual toothbrush

### Provides a superior clean

- Up to 10x more plaque removal than a manual toothbrush

### Proven to improve oral health

- Safe & gentle on sensitive areas, orthodontics & dental work

### Optimize your brushing

- Two modes, three intensity settings

### Designed around you

- Encouragement to brush thoroughly
- Always know when to replace your brush heads

### Innovative technology

- Lets you know if you're pressing too hard
- Connects smart brush handle and smart brush heads
- Philips Sonicare's advanced sonic technology

# Highlights

## Say goodbye to plaque

And thanks to its flexible design, it removes up to 10x more plaque from hard-to-reach areas\* for a truly deep clean along the gum line and between teeth.

## Brushing your way

This toothbrush allows you to customize your brushing with a choice of two modes and three intensities. Clean mode is standard for superior cleaning. And Gum Care mode adds an extra minute of reduced-power brushing, so you can gently massage your gums. Three intensities allow you to switch the order of 'higher' and 'lower' to align with the intensities from left to right.

## Safe and gentle

You can be sure of a safe brushing experience: our sonic technology is suitable for use with braces, fillings, crowns, and veneers, and helps prevent cavities and improve gum health.

## Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

## Monitor your brushing pressure

Brushing too hard can damage your teeth and gums. To prevent this, your Philips Sonicare ProtectiveClean emits a gentle pulsing sound to remind you to ease off on the pressure.

## BrushSync replacement reminder

All brush heads wear out over time. But our BrushSync technology tracks how long you've been using your brush head for, and how hard you've been brushing. When it's time to replace it, a light on your handle and a short beep will let you know. That way, you can be sure your brush head is doing a good job.

## BrushSync technology

A microchip-enabled technology that detects and synchronizes the smart brush head with the smart handle. The smart handle and smart brush head pair is a powerful combination that enables Smart replacement reminders.

## Helpful timers

Need an electric toothbrush with a timer? Our QuadPacer lets you know when you've spent just the right amount of time cleaning each part of your mouth, while our Smartimer tells you when you've brushed for the recommended two minutes.

# Specifications

## Modes

**3 intensities:** Low, Medium, High  
**Clean:** For exceptional everyday clean  
**Gum Care:** Gently massages gums

## Items included

**Handle:** 1 ProtectiveClean  
**Brush heads:** 1 C3 Premium Plaque Control
