Ответы на вопросы о Philips Sonicare

62 000 или 31 000
высокочастотных
движений?

Более быстрые вибрирующие движения позволяют эффективно удалять налет с поверхности зубов и эффективно очищать межзубные участки, не повреждая эмаль и десны. Движения совершаются на скорости до 62 000 или 31 000 раз в минуту.

Зачем нужны датчик
давления на зубы?

Колодки датчика давления (только для датчика давления, который имеет возможность при использовании с датчиком давления, при использовании зубной щетки). Датчик сигнализирует, когда необходимо ослабить давление на зубы.

Чем отличается
режим чистки?

Режим чистки отличается интенсивностью, частотой, амплитудой и продолжительностью работы. Встроенные функции позволяют вам, чтобы достичь максимального результата и эффективности от чистки.

Чем отличается
применение?

Применение-режим контролирует регулярность и длительность чистки, основываясь на времени давления на зубы. Применения для использования качества ухода за зубами имеют расширенный функционал, позволяющий использовать датчик давления, при использовании зубной щетки, который сигнализирует, когда необходимо ослабить давление на зубы.

Highlights

Better access to back teeth

This plaque-removing toothbrush has a slim, angled brush head which provides better access to back teeth and hard-to-reach places.

Ease into your new routine

Starting something new can take some getting used to. Our easy-start program gives you the option of a gradual, gentle increase in brushing power with the first 14 uses with your new toothbrush.

Helps reduce cavities

Provides better plaque removal and access to back teeth; brushing twice a day every day with this brush can help reduce cavities

The only true sonic technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

QuadPacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our QuadPacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.

Say goodbye to plaque

Densely-packed, high-quality bristles remove up to 7x more plaque than a manual toothbrush. And the specially curved power tip makes reaching the teeth at the back of your mouth a breeze.
