

**Philips 1000i Series
Air Purifier**

Reduces allergens, gases, odors
241 m³/h clean air rate (CADR)
Ideal for small to medium rooms

AC1213/40

Purifies the air in less than 12 mins (1)

99.9% virus, allergen & pollutant removal (2,3,4)

With professional-grade sensing performance, the Philips Air Purifier Series 1000 automatically monitors, reacts and purifies the air – then gives real-time air quality feedback via the numerical display and color ring. Ideal for bedrooms, with quiet night sense auto-mode.

Superior performance

- Fast purification suitable for rooms of up to 63 m²
- HEPA filter captures 99.97% of particles of 0.003 microns
- Removes up to 99.9% of viruses and aerosols from the air
- Smart sensors for intelligent purification
- Thoroughly tested for quality you can trust

Seamless operation

- Sleep mode with ultra-quiet operation
- Smart light control
- Low energy consumption

Effortless control

- Air quality display
- Auto mode and 5x manual speed levels
- Smart filter indicator

PHILIPS

Air Purifier

Reduces allergens, gases, odors 241 m³/h clean air rate (CADR), Ideal for small to medium rooms

Highlights

High performance

Powerful airflow circulation effectively covers rooms up to 63 m² and distributes clean air in every corner of the room. This boosts performance to 241 m³/hr CADR (Clean Air Delivery Rate). It cleans 20 m² in less than 12 min. (1)

99.97% particle removal

3-layer filtration with NanoProtect HEPA, Active Carbon and pre-filter captures 99.97% of ultra-fine particles as small as 0.003 microns (4), so you are safe from PM2.5, bacteria, pollen, dust, pet dander and other pollutants. Certified by the European Centre for Allergy Research Foundation.

Up to 99.9% virus removal

Captures aerosols including those which may contain respiratory viruses. Tested independently by airmid health-group to remove

up to 99.9% of viruses and aerosols from the air (3). Also tested for coronavirus (5).

Intelligent sensors

Scans the air 1000x a second to detect ultra fine-particles. Reports the air quality in real time, and intelligently chooses the right speed for your home (in auto mode).

Quality you can trust

Philips purifiers go through 170 mandatory and strict inspection tests before releasing from factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7.

Ultra-quiet operation

In Sleep mode, display lights are dimmed, and the purifier operates in near silence for clean air while you sleep.

AC1213/40

Smart light control

Both air quality index and the light on the UI can be dimmed and/or turned off to avoid light disturbance.

Low energy consumption

Thanks to its energy efficient design, the air purifier runs at max. 30 W power. This is equivalent to a standard light bulb.

Air quality display

See the real-time air quality in your home at a glance. The display shows the level of allergens and PM2.5 with an intuitive color ring.

Specifications

Weight and dimensions

- Weight: 5.3 kg
- Dimensions (L*W*H): 325 *210 * 543
- Color(s): White

Performance

- CADR (Particle, GB/T): 241 m³/h
- Room size (NRCC): Up to 63 m²
- Filtration: HEPA, Active Carbon, Prefilter
- Air quality sensor(s): PM2.5 particle
- Particle filtration: 99.97% at 0.003 microns
- Allergens filtration: 99.99%
- Virus & aerosol filtration: 99.9%

Usability

- Min. sound level (Sleep mode): 32 dB
- Max. sound level (Turbo mode): 62 dB

- Cord length: 1.8 m
- Automatic mode
- Sleep mode
- Manual speed settings: 5 (Sleep, Speed 1, 2, 3, Turbo)
- Air quality feedback: Color ring, numeral feedback
- Auto-ambient light

Energy efficiency

- Max. power consumption: 30 W
- Stand-by power consumption: <0.5 W
- Voltage: 120 V

Maintenance

- Replacement filter HEPA: HEPA filter FY1410 - 24 mos
- Replacement filter AC: AC filter FY1413 - 12 mos
- Service: 2-year worldwide guarantee

Issue date 2022-08-24

Version: 10.10.1

EAN: 00 07502 00652 23

* (1) From the air that passes through the filter, it is a theoretical time for one-time cleaning calculated by dividing its CADR 190²/h by the room size of 49³ (assuming the room is 20² in floor area and 2.4 m in height).

* (2) Tested on the filter media for 1 pass efficiency at 5.33cm/s air flow, by a third party lab. /From the air that passes through the filter, tested to JISB 9908-2024

* (3) Microbial Reduction Rate Test conducted at Airmid Health group Ltd. tested in a 28.5³ test chamber contaminated with airborne influenza A(H1N1). An air purifier by itself does not protect against Covid-19, but can be part of plan to protect yourself and your family (US Environmental Protection Agency)

* (4) From the air that passes through the filter, tested with NaCl aerosol by iUTA according to DIN71460-1.

* (5) Microbial Reduction Rate Test at external lab, in a test chamber contaminated with avian coronavirus (IBV) aerosols, with Philips HEPA NanoProtect filter.

* (6) The recommended service life for the device is based on a theoretical calculation of the average annual regional values^{??} of harmful air particles outdoors and daily use of the air purifier for 16 hours in automatic mode.
