- Connects smart brush handle and smart brush heads

Proven to improve oral health

- Philips Sonicare's advanced sonic technology

Designed around your patient

- A great way to get used to your new toothbrush
- Encouragement to brush thoroughly

Highlights

Improves gum health

Densely-packed, high-quality bristles give you an extra gentle brushing to remove plaque along the gumline to improve gum health up to 100% more than a manual toothbrush. And, the specially curved power tip makes reaching the teeth at the back of your mouth a breeze.

Too much pressure?

Patients may not notice if they are brushing too hard, but their toothbrush will. If patients start taking it out on their gums, the toothbrush will make a pulsing sound as a reminder to ease off on the pressure.

Safe and gentle

You can be sure of a safe brushing experience: our sonic technology is suitable for use with braces, fillings, crowns, and veneers, and helps prevent cavities and improve gum health.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

Smart replacement reminders

All brush heads wear out over time. But we've got that covered too: our smart brush-recognition technology tracks how long patients have been using their brush head for, and how hard they've been brushing. When it's time to replace it, a light on the handle lets them know. That way, they can be sure that their brush head is consistently doing a stellar job.

BrushSync technology

A microchip-enabled technology that detects and synchronizes the smart brush head with the smart handle. The smart handle and smart brush head pair is a powerful combination that enables Smart replacement reminders.

Helpful timers

Our QuadPacer lets patients know when they've spent just the right amount of time cleaning each part of their mouth, while our Smartimer tells them when they've brushed for the recommended two minutes.

Easy-start program

Starting something new can take getting used to. That's why our easy-start program gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

Specifications

Modes

Clean: For exceptional everyday clean

Items included

Handle: 1 ProtectiveClean

Brush heads: 1 G3 Premium Gum Care, 1 InterCare standard, 1 W2c Optimal White compact

Charger: 1
