- Removes up to 2x more plaque than a manual toothbrush
- Dynamic cleaning action drives fluid between teeth

Guides you to follow dental recommendations

- Two-minute timer helps ensure recommended brushing time
- Quadpacer interval timer encourages thorough brushing

Highlights

Patented sonic technology

Sonicare's unique dynamic action gently and effectively reaches deep between teeth and along the gumline.

Angled brush head neck

Uniquely angled brush head neck makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

Safe and gentle

Your Philips Sonicare Electric Toothbrush is safe to use on: braces (brush heads wear out sooner when used on braces), dental restorations (fillings, crowns, veneers) and periodontal pockets.

Smartimer

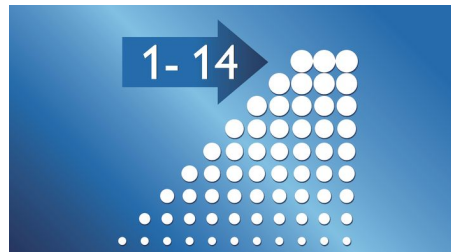

Two-minute timer helps ensure Dental Professional recommended brushing time

Quadpacer

30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on, resulting in more consistent cleaning throughout your mouth

Easy-start programme

Gently increases power over first 14 uses to ease you into the Philips Sonicare electric toothbrush experience
