# Highlights

## Light wakes you gradually

The light intensity from your wake-up light gradually increases in 30 minutes before your set wake up time. Light falls on your eyes and increases the level of energy in your body, gently preparing your body to wake up. This makes waking up a more pleasant feeling.

## 250 lux light intensity

The sensitivity to light differs a lot per person. In general, when using a higher light intensity a person needs less time to become fully awake. The light intensity of the Wake-up light can be set up to 250 lux. This makes sure you can wake up to the light intensity that suits your personal preference best.

## 2 natural wake-up sounds

At your set wake-up time, you will start hearing a natural sound or the selected radio station. It starts out quietly and takes a minute and a half to reach the volume level you

selected. There are two sounds you can choose from: morning birds and beep sound. The gradually increasing sound will make the wake up process even more pleasant, ensuring you're never rudely awakened.

## Bedside lamp

The 20 different brightness settings allow you to use the product as a bedside lamp

## Replaceable halogen lamp

The Wake-up Light makes use of a replaceable halogen lamp for the natural sunrise simulation.

## Independent research

Independent research\* shows that 8 out of 10 Wake-up Light users, found it easier to get out of bed. MatrixLab BE, NL, D, AT, CH 2011; n=209

## Clinically proven

It has been clinically proven that light wakes you up more pleasantly and improves the quality of waking up.

## Philips expertise

Brought to you by Philips, who has over 100 years of leadership in light therapy technology.

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

# Specifications

## Well-being by light

Wake-up gradually  
Increase alertness

## Sound

FM radio  
Number of Wake-up Sounds: 2

## Easy to use

Display brightness control: 4 settings  
Snooze type: Snooze button  
Anti-slip rubber feet  
Instore demo function  
Charges iPhone/ iPod Touch: No  
Controlled by iPhone/ iPod App: No  
Number of alarm times: 1  
Snooze button for sound: 9 minute(s)

## Safety

UV-free: UV-free

## Technical specifications

Power: 85 W  
Voltage: 230 V  
Frequency: 50 Hz  
Insulation: Class II (double isolation)  
Lifetime of lamps: expected >4.000 hours  
Type of lamps: Philips Halogen Lamp 100W, 12V, GY6.35  
Cord length: 200 cm  
Insulation Powerplug: N/A  
Power Output Adapter: N/A

## Weight and dimensions

Product dimensions: 25.2 (height) x 17.0 (diameter) cm  
Product weight: 1.45 kg  
Box dimensions (WxHxD): 19.5 x 30 x 19 (WxHxD) cm  
Box weight: 1.7 kg  
Country of origin: China  
Power Plug weight: N/A

## Natural light

Brightness settings: 20  
Colored sunrise simulation: No, Plain yellow  
Light intensity: 250 Lux  
Sunrise simulating process: 30 minutes  
Sunset simulation: No
