Highlights

Small brush head

The contoured bristle design on a smaller surface cleans as thoroughly as other Sonicare brush heads while allowing you to reach problem areas your dentist may have pointed out. This design helps you reach and focus on tight places where plaque and stains can hide.

Gently removes plaque

Gently removes plaque for an absolute clean and smooth feel.

Ultra soft bristles

Ultra soft bristles at the core of the bristle field are 25% softer than our standard ProResults brush head. For a more effective, gentle cleaning.

Innovative new brush head

Innovative new brush head profile delivers gentle experience while brushing sensitive teeth and gums.

Reminder bristles

Reminder bristles let's you know when to replace the brush head. After three months of normal use bristles exhibit fatigue, and brush heads are less effective. Replace your brush heads every 3 months.

Snap-on brush head

Easy brush head placement and handle cleaning
