

Philips Genuine replacement filter NanoProtect HEPA

Up to 24 months lifetime Filters 99.97% 0.003μm particles

FY1119/30

Powerful protection for the best performance

Genuine Philips filter that fits perfectly

Powerful protection for the best performance

Long lasting performance

• Up to 24 months of usage

Superior performance

- Philips filters ensure that your device works effectively
- The NanoProtect HEPA filter cleans faster than H13 (4)
- Up to 99.9% virus removal

Genuine Philips filter

• Perfect fit for consistently high performance

Designed around you

• Follow the Smart filter status indicator on your device

FY1119/30

Up to 24 months lifetime Highlights

The original Philips filter

Genuine Philips filter was designed together with the device itself to ensure a perfect fit which guarantees the continuously smooth operation of the device.

Quality you can trust

Philips air filters go through a set of mandatory and strict inspection tests before releasing from factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7. Our filters are designed to provide the best performance of your Philips purifier until the last day of the filter's lifespan.

Superior performance

NanoProtect HEPA filter's low-resistance fibers maximize the airflow. The electrostatic charge attracts particles as small as 0.003 microns with 99.98% of efficiency, enabling the filter to clean the air faster than a medically used HEPA H13 filter (4)

Up to 99.9% virus removal

The purifier captures aerosols including those which may contain respiratory viruses. Tested independently to remove up to 99.9% of viruses and aerosols from the air. Also tested for coronavirus (8).

Long lasting performance

Philips NanoProtect HEPA filter provides consistent protection and guarantees optimal filtration to up to 2 years. (1)

Effortless maintenance

Your Philips device notifies you when to clean your pre-filter and when to replace the filter. This takes less than a minute. The maintenance of the device is effortless to ensure that youalways enjoy clean, healthy air.

Specifications

Weight and dimensions

- Dimensions of product (LxWxH): 43*254*280 mm
- Dimension of packaging (LxWxH): 52*270*296 mm
- Weight incl. packaging: 0.396 kg
- Weight of product: 0.218 kg

Design and finishing

Color(s): White, grey

Replacement

• For Philips air purifier(s): DE5205

Performance

- Particle filtration: 99.97% at 0.003 microns
- Allergen filtration: Allergen filtration
- Virus & aerosol filtration: 99.9%

Maintenance

- Wash under water: No
- · Clean with a brush: No
- · Clean with chemical products: No

- * (1) Recommended lifetime is calculated based on the Philips users' average usage time and the WHO urban outdoor pollution level data. Actual lifetime is impacted by usage environments and frequencies.
- (2) Only applicable for selected models with connectivity
 (3) Only applicable in those countries where the Philips shop is available
- * (4) NanoProtect HEPA filter material provides lower air flow resistance than the material from a HEPA H13 filter, enabling a Philips air purifier with NanoProtect to deliver a higher Clean Air Delivery Rate (CADR) than with an equivalently-sized certified HEPA H13 filter
- * (5) From the air which passes through the filter, tested with NaCl aerosol by iUTA according to DIN71460-1.
- * (6) Contingent on the filter being used with AC1711 or 1715 Philips purifier
- purifier
 * (7) Microbial Reduction Rate Test conducted at Airmid Health group
 Ltd. tested in a 28.5m³ test chamber contaminated with airborne
 influenza A(H1N1).
- * (8) Microbial Reduction Rate Test at external lab, in a test chamber contaminated with avian coronavirus (IBV) aerosols, with Philips HEPA NanoProtect filter.
