

Philips Genuine  
replacement filter  
NanoProtect HEPA

Up to 24 months lifetime  
Filters 99.97% 0.003µm particles

FY1410/30

## Powerful protection for the best performance

### Genuine Philips filter that fits perfectly

The NanoProtect HEPA makes sure you are protected from viruses, bacteria, pollen, dust, PM2.5 and pet dander.

#### Superior performance

- Philips filters ensure that your device works effectively
- Up to 99.9% virus removal

#### Genuine Philips filter

- Perfect fit for consistently high performance

#### Designed around you

- Follow the Smart filter status indicator on your device

#### Superior performance

- The NanoProtect HEPA filter cleans faster than H13 (4)

#### Designed around you

- Connect with the device and monitor it through the app

# PHILIPS

# Highlights

## The original Philips filter

Genuine Philips filter was designed together with the device itself to ensure a perfect fit which guarantees the continuously smooth operation of the device.

## Quality you can trust

Philips air filters go through a set of mandatory and strict inspection tests before releasing from factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7. Our filters are designed to provide the best performance of your Philips purifier until the last day of the filter's lifespan.

## Superior performance

NanoProtect HEPA filter's low-resistance fibers maximize the airflow. The electrostatic charge attracts particles as small as 0.003 microns with 99.98% of efficiency, enabling the filter to clean the air faster than a medically used HEPA H13 filter (4)

## Up to 99.9% virus removal

The purifier captures aerosols including those which may contain respiratory viruses. Tested independently to remove up to 99.9% of viruses and aerosols from the air. Also tested for coronavirus (8).

## Long lasting performance

Philips NanoProtect HEPA filter provides consistent protection and guarantees optimal filtration to up to 2 years. (1)

## Effortless maintenance

Your Philips device notifies you when to clean your pre-filter and when to replace the filter. This takes less than a minute. The maintenance of the device is effortless to ensure that you always enjoy clean, healthy air.

## Track filter lifetime through

Monitor the lifetime and status of your filter anytime, anywhere with the CleanHome+ app (2). Get alerted when its time to change your filter and easily order a replacement directly through the app (3).

# Specifications

## Consumer Trade Item

- Height: 37.5
- Width: 29
- Length: 4
- Net Weight: .29
- Gross Weight: .439
- GTIN: 8710103820123
- Country of origin: CN
- Harmonized system code: 842139

## Outer Carton

- Height: 32.2
- Width: 27.3
- Length: 40.8
- Net Weight: 1.74
- Gross Weight: 3.268
- GTIN: 18710103828607

## Weight and dimensions

- Dimension of packaging (LxWxH):  
55\*290\*375 mm

- Dimensions of product (LxWxH): 28\*275\*360 mm
- Weight of product: 0.29 kg
- Weight incl. packaging: 0.439 kg

## Design and finishing

- Color(s): White, grey

## Replacement

- For Philips air purifier(s): AC1213, AC1214, AC1215, AC1217, AC2729

## Performance

- Particle filtration: 99.97% at 0.003 microns
- Allergen filtration: 99.99%
- Virus & aerosol filtration: 99.9%

## Maintenance

- Wash under water: No
- Clean with a brush: No
- Clean with chemical products: No

\* (1) Recommended lifetime is calculated based on the Philips users' average usage time and the WHO urban outdoor pollution level data. Actual lifetime is impacted by usage environments and frequencies.

\* (2) Only applicable for selected models with connectivity

\* (3) Only applicable in those countries where the Philips shop is available

\* (4) NanoProtect HEPA filter material provides lower air flow resistance than the material from a HEPA H13 filter, enabling a Philips air purifier with NanoProtect to deliver a higher Clean Air Delivery Rate (CADR) than with an equivalently-sized certified HEPA H13 filter

\* (5) From the air which passes through the filter, tested with NaCl aerosol by iUTA according to DIN71460-1.

\* (6) Contingent on the filter being used with AC1711 or 1715 Philips purifier

\* (7) Microbial Reduction Rate Test conducted at Airmid Health group Ltd. tested in a 28.5m³ test chamber contaminated with airborne influenza A(H1N1).

\* (8) Microbial Reduction Rate Test at external lab, in a test chamber contaminated with avian coronavirus (IBV) aerosols, with Philips HEPA NanoProtect filter.
