DST3041/36

Highlights

Continuous steam up to 40g/min

Strong and consistent steam output to remove creases faster.

Steam boost up to 200 gram

The strong steam boost gives you that extra power to penetrate deeper into the fabric and cut through the tough creases easily.

2600 watt for fast heat-up

Delivers fast warm-up and powerful performance.

Ceramic soleplate

Our durable ceramic soleplate glides well on any ironable garment. It does not stick to your garment, is scratch resistant and easy to keep clean.

Drip stop

Our drip-stop system prevents leakage to avoid stains from water droplets, so you can iron with confidence at any temperature.

Vertical steam

With the vertical steam function you can refresh garments right on the hanger and remove creases from hanging fabrics such as curtains. No ironing board required.

Triple precision tip

The tip is precise in 3 ways: it has a pointed tip, button groove and sleek nose design. Our triple precision tip helps you handle even the hardest-to-iron spots, like buttons and pleats.

Built-in calc-clean slider

This iron operates with ordinary tap water. Calc-clean is a built-in cleaning function to remove calcium buildup, or limescale, and maintain peak performance.

300ml water tank

Fewer refills are required thanks to a large 300ml water tank. So you can iron more clothes in one go.
