- Up to 3 months' ironing

Keep your iron at top performance

- 99% calc-free water for extending the life of your iron
- Prevents steam holes from clogging
- Prevents calcium residue on clothing
- Designed for all steam irons and steam generators

PHILIPS

Water filter for irons
Prevents scale build-up Suitable for all irons, 1 cartridge included

GC024/10

Highlights

99% calc-free water

Calcium deposits may clog your iron and accumulate rust, causing damage to your appliance. The special ion exchange resin inside the filter removes 99% of limescale from tap water, extending the life of your iron by up to 4 times*.

Consistent steam flow

The demineralised water from IronCare prevents scale build-up inside the iron. Calcium particles will not block the steam holes, helping your iron to provide consistent quality steam.

Easy water pouring

With the IronCare filter you can easily refill the water tank of your ironing appliance every

time. The non-slip hand grips allow you to handle it more comfortably.

Prevents calcium residue

Your favourite garments will not be ruined by calcium residue from inside your iron. Garments will remain clean after ironing and you will look great with neatly ironed clothes.

Smart cartridge replacement

Colour changes gradually to indicate the amount of water treated over time. The cartridge only needs to be changed when it turns completely brown.

Suitable for all irons

IronCare is designed to be suitable for all steam ironing appliances: steam irons, steam

generators and garment steamers from Philips or any other ironing brand.

Ultra-fast filtration

The specially designed cartridge allows rapid filtering of ironing water, so you can iron straight away when you need it. You can place the IronCare filter next to the place where you are ironing so you can refill your iron without taking it to the sink every time it needs to be refilled.

Up to 3 months' ironing

Cartridge lifetime may vary depending on the water hardness in your area and your ironing frequency habits. On average, 1 cartridge will last for up to 3 months of ironing time.
