- Timer: KidTimer and Quadpacer

Modes

- Power modes: 2

Highlights

Training and tracking

Children receive rewards and badges to keep them motivated, including gifts to keep their "Sparkly" training partner happy and healthy. A separate dashboard in the app allows parents to monitor their child's performance and progress as well as set up custom milestones and incentives. In a survey, 98% of parents said it's easier to get their child to brush longer and better*.

Personal brushing coach

Children navigate the app with the help of their training partner "Sparkly," whose mouth acts as a visual brushing guide, teaching children to thoroughly brush each quadrant of the mouth.

Bluetooth® connectivity

Connects via Bluetooth® wireless technology to a mobile device so kids can interact with the coaching app while they brush. The handle tells the app how long the child is brushing.

Sonic technology

Drives fluid between the teeth and along the gumline for a powerful yet gentle clean.

KidTimer

Gradually increases brushing time over 90 days until reaching the dentist-recommended two minutes to train kids to brush longer.**

Two brush head sizes

Provide the perfect option for every mouth. Standard and compact sizes are comfortable fit for kids ages 4 and older.

Two kid-friendly power modes

Give them just the right amount of power — low mode for younger children and high mode for older kids.

Eight faceplate stickers

Interchangeable stickers allow children to make the toothbrush uniquely their own.

KidPacer

KidPacer encourage kids to brush their entire mouth effectively for the dentist-recommended 2 minutes.

Ergonomic, easy-grip handle

Easy for small hands to maneuver independently and comfortably.

Rubber overmold

Provides added protection for growing teeth and a safer, gentler brushing experience.
