Express, store and feed

Breastfeeding made easy

The Comfort Breastfeeding Support Kit is the ideal set for moms who plan to express their milk. The set contains all you need to pump, store and feed your breast milk.

Express - Single Electric Breast Pump

- Relaxing position, clinically proven less leaning forward*
- Choose the most effective and comfortable setting for you
- Designed to let you express quietly
- Soft massage cushion gently stimulates milk flow
- Few separate parts and intuitive design
- Power cushion for extra suction

Feed - Natural bottle and nipple

- Includes our Natural bottle and nipple for natural latch on

Store - Storage cups

- For safe storage and transport
- Pump in storage containers

Care - Thermogel and disposable breast pads

- 2x thermogel pads for dual use
- Silky soft feel, breathable material

Highlights

Relaxing position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle or container, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, helps your milk to flow more easily.

Soft massage cushion

Our massage cushion has a soft velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. The iconic petal cushion is designed to mimic baby suckling, intended to gently help stimulate let down.

Soft power cushion

Choose the power cushion for the moments you need a stronger suction.

Simple settings to choose from

When switched on, the pump automatically starts in gentle stimulation mode to get your milk flowing. Then choose from 3 pumping settings to make milk flow most comfortable for you.

Quiet pump

Designed for discreet expression.

Easy set up, express and clean

Few separate parts and intuitive design. Easily express milk for your baby, anytime.

Includes our Natural bottle

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Pump in storage containers

With the milk storage cup adapter, you can easily pump in the milk storage container. No leakage, no spillage of your precious breast milk.

Leak proof lid

Philips Avent storage cups have a lid that creates a secure seal for safe storage and transport.

2x thermogel pads for dual use

Warm use helps to stimulate milk flow. Cold use for soothing and relief. Comes with two soft sleeves for added comfort

Silky soft feel

The Philips Avent disposable breast pads are made of silky soft topsheet, breathable material. They have multiple layers for super absorbency.
