 Product Picture

More comfort, more milk* Pump, store, feed & care Single electric breast pump all-in-one set

The Breastfeeding Starter set is ideal for moms who plan to express their breast milk. It has all you need to pump & store your breast milk, and feed your baby. It includes specialty products to help you care for your breasts and nipples.

Express

- More comfortable pumping position due to unique design
- Features a gentle stimulation mode and 3 pumping settings
- Soft massage cushion with warm feel

Feed

- Unique Petals for a soft, flexible nipple without collapse
- Natural latch on due to the wide breast shaped nipple

Store

- For use in fridge/freezer
- Easily pump in milk storage container

Care

- Silky soft feel

Soothe and stimulate

- 2x thermogel pads for dual use

Highlights

2x thermogel pads for dual use

Warm use to stimulate breast milk flow – Cold use for soothing and relief – Comes with extra soft sleeves for added comfort

Easily pump in milk storage co

With the milk storage cup adapter, you can easily pump in the milk storage container. No leakage, no spillage of your precious breast milk.

For use in fridge/freezer

The Philips Avent cups can be stored in the fridge or freezer and are dishwasher safe

More comfortable position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, naturally helps your milk to flow more easily.

Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Silky soft feel

Silky soft topsheet and breathable, natural materials. Dermatologically tested.

Simple settings to choose from

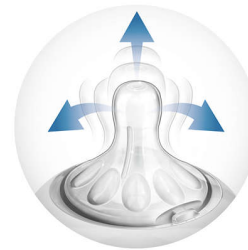

When switched on, the pump automatically starts in gentle stimulation mode to get your milk flowing. Then choose from 3 pumping settings to make milk flow most comfortable for you.

Soft massage cushion

Our massage cushion has a new soft velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. The cushion is designed to gently mimic your baby's suckling to help stimulate let down.

Unique comfort petals

Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.
