- Say goodbye to harmful bacteria

Sterilize and dry in 40 mins

- A full sterilising and drying cycle lasts just 40 minutes

Space saving design

- Roomy inside, compact outside

Highlights

Kills 99.9% of germs*

Sterilising is gentle, effective and chemical-free with Philips Avent. Every steriliser uses the power of pure steam – nothing more, nothing less – to kill 99.9% of harmful germs*.

Sterilise and dry in 40 mins

It takes just 40 minutes to get bottles ready for your baby's next feed. After powerful steam-sterilising, a focused jet of filtered air dries bottles and accessories, making them ready for instant use.

Integrated drip tray

Our new drip tray protects the heating plate from milk droplets, reducing the chance of unpleasant odours.

Sterilise, dry and store

Our premium electric steriliser does more than sterilise bottles and kill germs – it dries and stores bottles and accessories, keeping them sterile for up to 24 hours.

Sterile for up to 24 hours*

The steriliser's thorough, chemical-free cleaning will keep its contents sterile for up to 24 hours. How? Just keep the lid on.

Space-saving design

Our steriliser is slender and yet still holds up to six Philips Avent baby bottles. It also fits all the other essentials, from teats and soothers to a manual breast pump.

Easy to clean and assemble

Top to bottom, inside and out, the steriliser is quick and easy to clean – even the heating plate. So you get more time to be with your little one.
