Philips Sonicare's deep clean

- Up to 100% less stains for whiter teeth

For exceptional plaque removal

- Up to 10x more plaque removal than a manual toothbrush

Eco-friendly Design

- 70% bio-based plastic

Highlights

Say goodbye to plaque

And thanks to its flexible design, it removes up to 10x more plaque from hard-to-reach areas* for a truly deep clean along the gum line and between teeth.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

Brush head replacement cues

Brush heads become less effective after 3 months of use, but with BrushSync™ you'll be reminded before this happens. Your smart toothbrush will track how often and how hard you brush, and will notify you when it's time for a replacement. Don't have a smart Philips Sonicare toothbrush? Just monitor your blue replacement bristles, and when they turn white you'll know it's time for a fresh brush head.

Brushing with peace of mind

All Philips Sonicare brush heads are safe and gentle on teeth and gums. During tests, each brush head is put through its paces to ensure durability and an exceptional performance every time you brush.
