- Uniform heating for efficient ironing over the garments
- Precision tip
- Button groove speeds up ironing along buttons and seams

Long lasting performance

- Tested cord for durability and safety
- Thermal fuse protection against over-heating

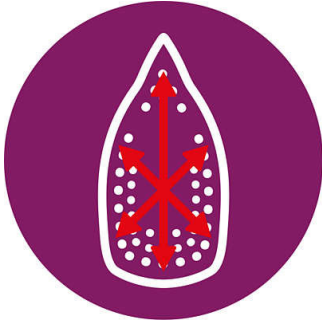

PHILIPS

Highlights

750 W to heat up quickly

Delivers a fast warm-up and powerful performance.

Uniform heating

This iron provides even heat distribution over its soleplate, minimizing the risk of scorching your clothes and helping you to achieve good ironing results easily.

Button groove

The button groove makes ironing along buttons and seams fast and easy.

Precision tip

The precision tip and sleek nose design helps you maneuver easily around buttons and pleats.

Comfortable grip

This iron ensures a comfortable and ergonomic grip. There is an ample space between the handle and the body of the iron so that your hand fits well during ironing.

Light-weight

The iron has an optimal weight, making it easy to constantly place the iron on the ironing table and back to its heel-rest.

Temperature light-indicator

Temperature light goes on when the iron is heating up and goes off when the soleplate temperature has reached the set level.

Non-stick soleplate

Our non-stick soleplate glides easily on any ironable garment with a special non-stick layer.

Long-lasting cord

All our iron cables are rigorously tested for maximum safety and durability.

Thermal fuse protection

This iron is protected with a thermal fuse for extra-safety against over-heating.
