Highlights

Naturally whiter teeth

Click on the W2 Optimal White brush head to remove surface stains and reveal a whiter smile. With its densely packed central stain-removal bristles, it's clinically proven to whiten teeth in just one week.

Brushing your way

This toothbrush allows you to customise your brushing with a choice of three modes and three intensities. Clean mode is standard for superior cleaning; White is the ideal mode for removing surface stains; and the Gum Care mode adds an extra minute of reduced-power brushing, so you can gently massage your gums. Three intensities allow you to switch the order of "higher" and "lower" to align with the intensities from left to right.

Safe and gentle

You can be sure of a safe brushing experience: our sonic technology is suitable for use with braces, fillings, crowns and veneers, and helps prevent cavities and improve gum health.

Too much pressure?

You may not notice if you're brushing too hard, but pressure sensor on your electric toothbrush will. If you start taking it out on your gums, the toothbrush will make a pulsing sound as a reminder to ease off on the pressure.

BrushSync technology

A microchip-enabled technology that detects and synchronises the smart brush head with the smart handle. The smart handle and smart brush head pair is a powerful combination that enables Smart mode pairing and Smart replacement reminders.

Mode and intensity pairing

Wondering which mode and intensity you should use? Wonder no longer. BrushSync mode pairing tells your smart handle which smart brush head you're using. So, if you click on a gum care brush head, for example, your toothbrush knows to select the optimal mode

and intensity for your gums. All you need to do is to press the power button.

BrushSync replacement reminder

All brush heads wear out over time. But our BrushSync technology tracks how long you've been using your brush head for, and how hard you've been brushing. When it's time to replace it, a light on your handle and a short beep will let you know. That way, you can be sure your brush head is doing a good job.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.

Helpful timers

Our QuadPacer lets you know when you've spent just the right amount of time cleaning each part of your mouth, while our Smartimer tells you when you've brushed for the recommended two minutes.

Specifications

Power

- Voltage: 110-220 V

Technical specifications

- Operating time (full to empty): Up to 2 weeks
- Battery: Rechargeable
- Battery type: Lithium ION

Design and finishing

- Colour: White Silver

Service

- Warranty: 2-year limited warranty

Ease of use

- Handle compatibility: Easy click-on brush heads
- Handle: Slim ergonomic design
- Battery indicator: Light shows battery status
- Brushing time: Up to 2 weeks

Items included

- Travel case: 1
- Charger: 1
