- Better plaque removal to help reduce cavities

Innovative technology

- Philips Sonicare's advanced sonic technology

Optimize your brushing

- Angled brush head for better access to back teeth

Highlights

Removes up to 2x more plaque

Patented Sonic Technology removes up to 2x more plaque than a manual toothbrush.

Helps reduce cavities

Provides better plaque removal and access to back teeth; brushing twice a day every day with this brush can help reduce cavities

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

Better access to back teeth

This plaque-removing toothbrush has a slim, angled brush head which provides better access to back teeth and hard-to-reach places.

QuadPacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our QuadPacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.

Ease into your new routine

Starting something new can take some getting used to. Our easy-start program gives you the option of a gradual, gentle increase in brushing power with the first 14 uses with your new toothbrush.
