

PHILIPS

AVENT

Manual Breast Pump

Easily pump, store and feed

Basic set

SCF430/13

Comfortable pumping, wherever you go

Natural Motion Technology, for quick milk flow

Enjoy the gentle comfort of the Philips Avent portable manual breast pump. With Natural Motion Technology, inspired by baby's own suckling action for a quick letdown. You can easily adjust rhythm and vacuum. Fits practically all nipples.

Easy to clean

- Easy to clean and set up

Comfortable expression

- Easily triggers milk release before or between feeding
- Express, store and feed
- Express without leaning forward
- Choose your rhythm, follow your milk flow

Portable and convenient

- Ideal for moms who pump on-the-go

Simple, gentle and effective

- One-size soft adapting silicone cushion
- Helps you release milk fast

Highlights

Natural Motion Technology

The innovative silicone flange – inspired by baby's unique suckling action – stimulates the nipple to help start your milk flow, fast. For comfortable and effective expression.

Adapts to your nipples

One size fits all. Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your unique anatomy. Fits 99.98% of all nipple sizes* (up to 30mm).

Portable and easy to use

The breast pump is small and lightweight, which means it is easy to store and transport, making pumping on-the-go simple and discreet.

Fast milk release

A unique, portable manual breast pump – ideal for mothers who need to gently release their milk while away from home, or before breastfeeding.

Suction and flow control

Feel free to adjust the pumping rhythm and suction to suit your needs, comfort and milk flow.

Sit comfortably

Relax and sit comfortably while you express – thanks to our design that lets you sit upright, rather than having to lean forward.

Easy to clean and set up

Because there are only a few parts, our new pump is easy to set up and clean.

Express, store and feed

Express directly into the storage cup, which prevents leakage or spillage. When baby's hungry, simply attach the soft nipple to the cup for feeding. Save your milk in the fridge or freezer and choose your preferred storage solution, bags or cups.
