Highlights

Covers more area, effortlessly

X-shaped water streams cover more surface area for a faster, deeper clean versus manual floss. Effortlessly.

Guides from tooth to tooth

Gentle pulses of water guide you from tooth-to-tooth so that you don’t miss a spot.

Whisper quiet design

Engineered for a discreet clean, so you get great results without disturbing others.

4 modes, 10 intensities

Enjoy a clean that’s tailored to your needs. Clean mode uses a continuous flow of water for a great everyday clean; Deep Clean uses distinct pulses for a more thorough clean; Sensitive mode is extra gentle for sensitive gums; Massage mode soothes and stimulates the gumline. Whenever you need, adjust the intensity for your comfort using the LED light display as your guide.

F2 Comfort nozzle

Want to take care of sensitive gums? Click on the Comfort nozzle and gently guide the soft rubber tip along your gumline.

F3 Quad Stream nozzle

For maximum coverage and an extra thorough clean, use the Quad Stream nozzle to concentrate water into four wide streams between teeth and along the gum line. The soft rubber guide is gentle on gums and every nozzle simply clicks on and off.

F1 Standard nozzle

Use the standard nozzle for a regular clean. It uses a single stream of water to remove debris and clean thoroughly between your teeth.

Magnetic dock w/auto shut-off

When you’re finished, simply return the handle to the easy magnetic dock. The handle automatically switches from pause to off.
