Highlights

Fun and educational

Kids play along with the interactive app during brush time. The Sonicare kids app coaches them into how to brush, with fun animations and rewards designed to support them as they build their routine.

Sync-up every few days

Your child’s brush saves data for up to 20 brushing sessions, meaning there’s no need to constantly sync. It also saves time information – so you can easily monitor how well your child is sticking to their routine.

Monitored brushing for kids

Philips Sonicare For Kids monitors your child’s progress as they learn. Their brush syncs with the app and captures details about their technique and performance over time. 98% of surveyed parents say the app leads to longer and better brushing.

Meet Sparkly

The Sonicare Kids app is designed to make brushing easier for children. Sparkly encourages your child to brush each part of their mouth for even coverage. And the speed gradually increases to 2-minutes over time to meet dental brush time recommendations.

Kids toothbrush with app

The fun starts as soon as brush time begins. Sonicare kids can earn healthy food rewards to feed to Sparkly, who will encourage them to brush for longer and in a better way.

Multi grip design

Brushes are easy to grip for little as well as big hands, with a clever ergonomic design that ensures safe and easy handling.

A deeper clean

Your child will get a deeper clean of their teeth and gums. In fact, the Philips Sonicare For Kids is up to 75% more effective than manual brushes, reaching all the hard-to-get-at places between teeth and the gum line.

Protects young teeth and gums

Developing teeth need extra protection. The rubberized brush head is designed to reduce friction and eliminate discomfort for kids.

8 fun handle stickers

Fun handle stickers let kids choose the look of their toothbrush. With eight interchangeable designs inside every Sonicare toothbrush box, kids
