## Cleaner teeth. Gently does it.

Remove up to 7x more plaque than a manual

Feel the difference of a gentle clean with our Pressure Sensor while removing up to 7x more plaque than a manual toothbrush

### Proven to improve oral health

- Gentle on sensitive areas, orthodontics & dental work
- Removes up to 7x more plaque than a manual toothbrush

### Designed around you

- 2 minute brushing time recommended by dentists
- Get used to your new Sonicare 4100

### Innovative technology

- Lets you know if you're pressing too hard
- Connects smart brush handle and smart brush heads
- The Sonicare 4100 tells you when to switch brush heads
- Sonic technology that pulses between teeth

## Highlights

### Sonicare 4100 – goodbye plaque

Cleans those hard-to-reach places that a manual toothbrush can't get to, with contoured bristles designed to make brushing easy.

### Monitor your brushing pressure

Brushing too hard can damage your teeth and gums. To prevent this, your Philips Sonicare ProtectiveClean emits a gentle pulsing sound to remind you to ease off on the pressure.

### BrushSync technology

A microchip-enabled technology that detects and synchronizes the smart brush head with the smart handle. The smart handle and smart brush head pair is a powerful combination that enables Smart replacement reminders.

### Prioritizes your oral hygiene

Sometimes you can forget the last time you replaced your brush head. With its unique BrushSync technology, the head and base will sync-up to remind you when the time comes – with a simple short beep and handle light.

### Safe brushing experience

A Philips Sonicare ProtectiveClean toothbrush can be safely used on braces, fillings, crowns, veneers and other sensitive orthodontics

### Sonicare 4100 – a deeper clean

Sonic technology pulses water between your teeth and gums to break up and remove 3x as much plaque along the gumline than a manual toothbrush.

### Ease in to electric brushing

Our easy-start program gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

### Smart functionalities

With a gentle pulse reminds you to change to a new part of your mouth, and signals when 2 minutes of brushing time is up. This sonic electric toothbrush gives you the most optimal brush, every time.
