Highlights

100% Ceramic grinders

Our grinders are made of high-tech ceramic: exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating: extracting all the best flavors and aroma, delivering a superior coffee taste for at least 20,000 cups.

Quick Heat Boiler

When time is of the essence, you can brew perfect espresso and cappuccino without the wait, thanks to the Quick Heat Boiler. The secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

Classic Milk Frother

The Classic Milk Frother is for those who love to assume the role of master craftsman, and it's just easy. Within seconds you can create a rich, silky layer of foam - the crowning glory of your coffee.

Powder Option

Sometimes it's nice to have the option of a full-bodied, delicious coffee, without the caffeine kick. Thanks to the Powder Option you can make decaffeinated coffee whenever you please.

Designed for efficiency

Saeco Incanto ingeniously combines efficiency with attentiveness to meet the highest standards for your home – keeping water consumption and energy usage low. And with the programmable stand-by, just tell the Saeco Incanto when it won't be needed and it will switch itself off automatically. Easy.

Auto-cleaning

The automatic cleaning cycle makes it easy to look after, and it increases the machine's longevity – giving you more time to enjoy your coffee instead of cleaning up.

Specifications

Weight and dimensions

- Dimensions of product (WxDxH): 215 x 429 x 330 mm

Country of origin

- Made in: Europe

Technical specifications

- Voltage: 230 V
