Tough on plaque. Extra gentle on gums. Exceptional plaque removal for better gum health

The Philips Sonicare ProResults gum health toothbrush head is perfect for those who want to maintain optimal plaque removal, with an extra gentle touch, as part of their everyday oral healthcare routine.

A brush head that fits multiple handles

- Works with any Philips Sonicare click-on toothbrush

Proven to improve oral health

- Part of a better oral healthcare routine

Better plaque removal and gum care

- Removes up to 6x more plaque than a manual toothbrush

Designed to optimize performance

- Reminder bristles ensure your most effective clean
- Designed for optimal gum health improvement
- Philips Sonicare's advanced sonic technology

Highlights

A gentler experience

This Philips Sonicare toothbrush head features densely-packed, high-quality tufts to effectively remove plaque and improve gum health. Specially curved power tufts to easily reach teeth at the back of the mouth. Also features gentle trim profile to cushion teeth for an extra gentle brushing experience.

Removes up to 6x more plaque

Philips Sonicare ProResults gum health brush head is clinically proven to remove up to 6x more plaque between teeth than a manual toothbrush after just four weeks of use.

Maximized sonic motion

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

Click-on brush head system

This brush head clicks on and off your brush handle for a secure fit and easy maintenance and cleaning. It fits all Philips Sonicare toothbrush handles except: PowerUp Battery and Essence.

Better oral healthcare

Like all authentic Philips Sonicare branded brush heads, this brush head is safe on teeth and gums. Each brush head has been quality tested for exceptional performance and durability.

Reminder bristles

At first glance it may not be obvious, but brush heads lose stiffness and gradually wear down over months of normal use. Our blue reminder bristles fade to white and help you recognize when it's time for a replacement. For optimal results, replace your brush head every three months.
