Our best ever toothbrush, for complete oral care Feel confident, with 100% coverage

The DiamondClean Smart is our best toothbrush, for complete care****. High-performance brush heads let patients focus on all areas of their oral health, and our Smart Sensor technology gives personalized feedback and coaching.

Superior results for patients' oral care needs

- Removes 10x more plaque* for a deep clean
- Up to 7x healthier gums* in just 2 weeks
- Remove up to 5x more stains* in just 3 days
- Supports long-lasting clean breath

Personalized feedback with smart sensor technology

- A second chance to clean missed spots
- Alerts patients when they're brushing too hard
- Helps patients start to take better care of trouble areas
- Tracks and improves your patients' coverage
- Guides patients to reduce their scrubbing

Intuitive brushing experience

- USB charging travel case and charging glass
- Brush heads sync with optimal mode for ultimate results
- Make sure patients get the most from their brush heads

Highlights

Say goodbye to plaque

C3 Premium Plaque Control is our deepest cleaning brush head yet. With soft flexible sides, the bristles contour to the shape of each tooth's surface to provide 4x more surface contact and remove up to 10x more plaque from hard-to-reach areas*.

Care for your gums

Click on the G3 Premium Gum Care brush head to improve your gum health. Its smaller size and targeted gum line bristles deliver gentle yet effective cleaning along the gum line, where gum disease starts. It's clinically proven to deliver up to 100% less gum inflammation* and up to 7x healthier gums in just two weeks.*

W3 Premium White brush head

W3 Premium White is our best brush head for removing stains. With its densely packed central stain removal bristles, it's clinically proven to remove up to 5x more stains* in just three days.

TongueCare+ tongue brush

With 240 elastomer MicroBristles, the TongueCare+ tongue brush is specifically designed to clean the soft and porous surface of the tongue. The flexible MicroBristles contour to and gently clean around the ridges and grooves, to remove bacteria buildup and drive our bacteria-killing BreathRx tongue spray deeper. The compact shape allows patients to comfortably clean the entire tongue.

Focus areas and goal-setting

If you identify specific spots in a patient's mouth that need more attention due to plaque buildup, gum recession or any other issue,

DiamondClean Smart can help them tackle those trouble areas. Patients can highlight these spots in their personalized 3D mouth-map within the Philips Sonicare app, and they will receive reminders to give these areas the extra care they need each time they brush. The Philips Sonicare app maintains a running history of their brushing data, so patients can easily review their performance, track their progress and work to improve their daily oral care routine.

Location sensor

DiamondClean Smart's location sensor shows patients where they're brushing too little for better coverage. If there are spots your patients consistently miss when they're brushing, the location sensor will bring them to their attention.

Scrubbing sensor

With an electric toothbrush, patients should let the brush do the work rather than using a scrubbing motion. DiamondClean Smart has a scrubbing sensor that helps guide them to reduce scrubbing for optimized technique and a gentler clean.

Specifications

Connectivity

Bluetooth® wireless technology: Connected brushing app

Power

Voltage: 110-220 V

Technical specifications

Battery: Rechargeable

Operating time (full to empty): 14 days*****

Battery type: Lithium ION
