- Perfect fit for consistently high performance

Effortless control

- Follow the Smart filter status indicator on your device

Seamless operation

- Philips filters ensure that your device works effectively

Superior performance

- Up to 99% less bacteria with NanoCloud technology (1)

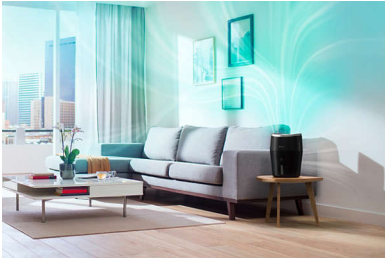

Seamless operation

- Up to 6 months of usage

PHILIPS

NanoCloud Technology Highlights

The original Philips filter

Replacing the filter with the original Philips humidification wick ensures a consistently high and efficient performance of your air humidifier. It is designed specifically for the indicated device to make sure it perfectly fits and allows the appliance to operate smoothly.

NanoCloud Technology

Unique NanoCloud Technology uses natural evaporation to emit pure water vapor. Due to its fine size, it is extremely difficult for bacteria or residue to attach to humidifying the air with up to 99% less bacteria released than standard ultrasonic humidifiers (1).

Quality you can trust

Our filters go through a set of mandatory and strict inspection tests before releasing from factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7, to provide the best performance of your Philips humidifier until the last day of the filters lifespan.

Long lasting performance

This humidification wick provides consistent protection and guarantees optimal filtration up to 6 months.

Effortless maintenance

Your Philips device notifies you when to clean or replace the humidification wick. This makes the maintenance of the appliance effortless while ensuring that you always enjoy comfortable, clean air.

Specifications

Country of origin

- Country of origin: China

Weight and dimensions

- Dimension of packaging (LxWxH): 80X135x250 mm
- Weight of product: 0.07 kg
- Dimension of product (LxWxH): 190x130x130 mm
- Weight incl. packaging: 0.175 kg
- Color(s): Dark grey

Performance

- Filter: Humidification Wick
- Bacteria filtration: Up to 99% less (1)

Compatibility

- Suitable for these models: HU4801, HU4802, HU4803, HU4810, HU4811, HU4813, HU4814

Issue date 2024-01-31

Version: 7.7.1
