- Start taking better care of your trouble areas
- Guides you to brush and highlights missed areas
- Guides you to reduce your scrubbing

#### Optimize your brushing

- Brush heads automatically select the optimal settings
- Choose from 5 modes and 3 intensity settings
- Make sure you're getting the most from your brush head
- Premium travel case

# Highlights

## Premium All-in-One brush head

Clean without compromise with the A3 Premium All-in-One brush head. Our all-time best has angled bristles to help remove up to 20x more plaque even in hard-to-reach areas\*. Triangular tips work to remove up to 100% more stains in less than two days\*\*\*. And longer bristles clean deep for gums that are up to 15x healthier in just two weeks\*\*. All that without ever switching brush heads. Did you know: brush heads become less effective after 3 months of use? Our BrushSync™ feature can remind you when it's almost time for a replacement.

## Care for your gums

Click on the G3 Premium Gum Care brush head to improve your gum health. Its smaller size and targeted gum line bristles deliver gentle yet effective cleaning along the gum line, where gum disease starts. It's clinically proven to deliver up to 100% less gum inflammation\*\*\*\* and up to 7x healthier gums in just two weeks.\*\*\*\*

## Focus areas and goal-setting

Any trouble areas your dentist has pointed out? We'll highlight them on your in-app 3D mouth map, and remind you to pay extra attention to these areas.

## Never miss a spot

The Philips Sonicare app lets you know when you've achieved a thorough clean, and coaches you to be a better, more mindful brusher.

## Too much pressure?

You might not notice when you brush too hard, but your DiamondClean Smart will. If you use too much pressure, the light ring on

the end of your handle will flash. This is a gentle reminder to ease off the pressure, and let your brush head do the work. 7 out of 10 people found this feature helped them become a better brusher.

## Easy does it

With an electric toothbrush, you let the brush do the work. We've built a scrubbing sensor into your handle as a gentle reminder to reduce scrubbing. This way, you can improve your technique and get a gentler, more effective clean.

## TouchUp feature

If you happen to miss a spot while brushing your teeth, your app's TouchUp feature will show you. You can then go back for a second pass, and be confident you are getting a complete clean, every time.

# Specifications

## Design and finishing
