## Up to 20 x more plaque removal even in hard-to-reach areas

### Complete care for a healthier mouth

The DiamondClean Smart 9400 is our best toothbrush, for complete care. Four high-performance brush heads let you focus on all areas of your oral health and our Smart Sensor technology gives you personalised feedback and coaching.

#### **Personalised in-app coaching to perfect brushing**

- Takes you back to any missed spots for 100% coverage
- Alerts you if you're pressing too hard
- Start taking better care of your trouble areas
- Guides your brushing and highlights missed areas
- Guides you to reduce your scrubbing

#### **Optimise your brushing**

- Brush heads automatically select the optimal settings
- Choose from 4 modes and 3 intensity settings
- Easy and stylish charging — home and away
- Make sure you're getting the most from your brush head

## Highlights

### 4 modes, 3 intensity settings

With DiamondClean Smart you get the full works. Our 3 intensity settings let you boost your clean and our 4 modes cover all your brushing needs; Clean mode for exceptional daily cleaning, White+ to remove stains, Deep Clean+ for an invigorating deep clean, and Gum Health to gently clean along your gum line.

### Never miss a spot

The Philips Sonicare app lets you know when you've achieved a thorough clean and coaches you to be a better, more mindful brusher.

### TouchUp feature

If you happen to miss a spot while brushing your teeth, your app's TouchUp feature will show you. You can then go back for a second pass, and be confident you are getting a complete clean, every time.

### Smart replacement reminders

Brush heads wear out over time and become less effective at removing plaque. With smart brush head recognition you'll never lose track of when to replace your brush head. Your toothbrush tracks how long and hard you've brushed with each brush head, and will alert you when it's time to replace. You can also monitor the lifetime of your brush heads in the Philips Sonicare app, and even order replacements so you're never caught short.

### Focus areas and goal-setting

Any trouble areas your dentist has pointed out? We'll highlight them on your in-app 3D mouth map and remind you to pay extra attention to these areas.

### Too much pressure?

You might not notice when you brush too hard, but your DiamondClean Smart will. If you use too much pressure, the light ring on the end of your handle will flash. This is a gentle reminder to ease off the pressure and let your brush head do the work. 7 out of 10 people found that this feature helped them to become a better brusher.

## Highlights

### Easy does it

With an electric toothbrush, you let the brush do the work. We've built a scrubbing sensor into your handle as a gentle reminder to reduce scrubbing. This way, you can improve your technique and get a gentler, more effective clean.

### BrushSync mode pairing

Wondering which mode and intensity you should use? Wonder no longer. A microchip in your brush head tells your DiamondClean Smart which one you're using. So if you click on a gum-care brush head, for example, your toothbrush knows to select the optimal mode and intensity to provide gentle yet effective care for your gums. All you need to do is to press the power button.

### Designed with storage in mind

You'll enjoy two weeks of regular use from a single full charge. However, if you run low while travelling, your deluxe USB travel case doubles as a charger. Place your toothbrush in the case and either connect it to your laptop or a wall socket. As for charging at home, simply place your brush in your sleek charger glass—it fits stylishly into your bathroom and also doubles as a rinsing glass.
