- Choose the right nipple flow for your baby
- No-drip nipple design prevents spills and lost milk
- Compatible across the Philips Avent range
- Simple to use, easy to clean and quick to assemble
- Natural Response Nipples and Bottles are BPA free*
- Pharmaceutical grade glass, purity and heat resistance
- Silicone sleeve makes bottle easier to hold

Vents air away from your baby's tummy

- Designed to reduce colic and discomfort

Highlights

Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

Natural latch on

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

No-drip nipple

The nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

Heat resistant glass

Made of premium quality borosilicate glass, the Philips Avent glass bottle is heat and thermal shock resistant. It can therefore be safely stored in the fridge, warmed, and is also suitable for sterilization.

Silicone sleeve

The silicone sleeve is an ideal way to protect your Philips Avent glass bottles and makes them easier to grip. Thanks to the opening in the sleeve, you can easily read the scale during your baby's feed.

Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Compatible across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it.
