PHILIPS

Highlights

More power for smoother blends

Finer blending of fruit and vegetables, thanks to our 1400 W motor.

Unlocks more nutrients

We developed our ProBlend 6 3D technology to ensure that all of the ingredients in your smoothie are finely blended—so the nutrients in fruit, vegetables and nuts are unlocked from the cell structure and easily absorbed by your body.

Up to 35,000 RPM

35,000 RPM for excellent blending and even healthier smoothies

Large-capacity blender jar

Everyone loves a good smoothie! Our 2-litre glass jar has a working capacity of 1.8 litres to make smoothies for the whole family.

2 tritan tumbler jars

Make your smoothie directly in the drinking tumbler jar and take it with you! Our blender comes with 2 sturdy 600 ml tritan tumbler jars, to make smoothies directly in the tumbler and that easily fits in your bag or backpack.

Choose your blending speed

From gentle blending for soft fruits, to a burst of power for harder fruit and vegetables—it's up to you with our variable manual speed options.

Smoothies pre-set programme

Smoothies pre-set programme makes homemade smoothies easy.

Dishwasher-safe, easy to clean

All detachable parts of your Philips blender are dishwasher safe—except for the blade unit, which can be easily rinsed clean. The base can be wiped clean if needed.

Detachable blender blades

To clean the blender blades, simply detach them from the blender jar and rinse. However, to preserve their sharpness, the blades cannot be cleaned in the dishwasher.

Our promise of quality

You enjoy a 2 year worldwide warranty on our blenders—which is our guarantee of long-lasting quality and operation.
