# Highlights

## 150m Range

Stay connected to your baby in your home with 150m range

## 2.4 inch LCD screen (SCD610)

See your baby day and night. Full colour by day and infra red black and white by night

## Automatic channel selection

Hear your baby and not anything else. Your monitor simultaneously switches between 120 channels to keep your connection free from any interference

## Automatic screen activation

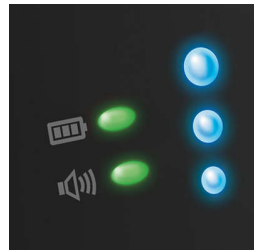

Automatic screen activation when a noise is detected in your baby's room. Volume and brightness control enables easy viewing of your child

## Compatible camera

All bases covered. Having more than one camera means you can see your baby from room to room. Can be used with up to four SCD609 Cameras

## Connection and low power indic

Check that your monitor is connected. A green light shows that it is linked, a flashing red one shows if the connection has dropped off

## Sound level lights

Lights are activated to indicate the level of sound in your baby's room. Even with the Parent Unit is muted

## Wall mountable

Get a great view of your baby. Mount your monitor on the wall using the easy to attach wall mount

## Zoom and Pan

See everything your baby is up to with 2x optical pan and zoom
