Highlights

150m Range

Stay connected to your baby in your home with 150m range

2.4 inch LCD screen (SCD610)

See your baby day and night. Full colour by day and infra red black and white by night

Automatic channel selection

Hear your baby and not anything else. Your monitor simultaneously switches between 120 channels to keep your connection free from any interference

Automatic screen activation

Automatic screen activation when a noise is detected in your baby's room. Volume and brightness control enables easy viewing of your child

Compatible camera

All bases covered. Having more than one camera means you can see your baby from room to room. Can be used with up to four SCD609 Cameras

Connection and low power indic

Check that your monitor is connected. A green light shows that it is linked, a flashing red one shows if the connection has dropped off

Sound level lights

Lights are activated to indicate the level of sound in your baby's room. Even with the Parent Unit is muted

Wall mountable

Get a great view of your baby. Mount your monitor on the wall using the easy to attach wall mount

Zoom and Pan

See everything your baby is up to with 2x optical pan and zoom
