PHILIPS

Highlights

LatteGo milk system

Enjoy silky-smooth cappuccino, even with your favourite plant-based milk alternatives. Thanks to the cyclonic frothing technology, LatteGo transforms various types of milk and plant-based alternatives with the right amount of fat and protein into the best possible dense layer of foam.

Intuitive touch display

The irresistible taste and aroma of coffee from fresh beans is just one touch away. Our intuitive touch display allows you to easily select your favorite coffee.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C,

while regulating the water flow rate, so you can enjoy delicious coffees.

My Coffee Choice

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.

3 aromatic coffees

Enjoy your favourite coffees for your special moments. Whether you crave for an espresso, a coffee or a milk based recipe, your fully-automatic espresso machine delivers a perfect in-cup result with no hassle and in no time!

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into

anything from ultra-fine powder to coarse grindings.

100% ceramic grinders

Bring out the full flavor of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures they last for at least 20.000 cups.

2 parts, no tubes milk system

Our 2 parts milk system has no tubes or hidden parts and can be cleaned in as little as 15 seconds under tap* or in the dishwasher.

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups***, while enjoying clear and purified water.
