

Philips Genuine  
replacement filter  
Active Carbon filter

Up to 12 months lifetime  
Filters gases & odors

**FY2420/30**

## Powerful protection for the best performance

### Genuine Philips filter that fits perfectly

Philips Active Carbon filter effectively captures odors and inhalable hazardous gases like VOC, ozone and formaldehyde from the air in your home, to keep it clean and safe.

#### **Genuine Philips filter**

- Perfect fit for consistently high performance

#### **Designed around you**

- Follow the Smart filter status indicator on your device
- Connect with the device and monitor it through the app

#### **Superior performance**

- Philips active carbon filter removes gasses and odors

#### **Superior performance**

- Philips filters ensure that your device works effectively

#### **Long-lasting performance**

- Up to 12 months of usage

# PHILIPS

# Highlights

## The original Philips filter

Genuine Philips filter was designed together with the device itself to ensure a perfect fit which guarantees the continuously smooth operation of the device.

## Removes gases and odors

The honeycomb-structured Active Carbon filter is engineered to effectively remove hazardous gases, including ozone and harmful VOC (Volatile Organic Compounds) from the air. Home renovations, cooking and other activities release these harmful gasses which the Active Carbon effectively absorbs so that you can breathe clean and healthy air.

## Quality you can trust

Philips air filters go through a set of mandatory and strict inspection tests before releasing from factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7. Our filters are

designed to provide the best performance of your Philips purifier until the last day of the filters lifespan.

## Long lasting performance

Philips Active Carbon filter provides consistent protection and guarantees optimal filtration for up to a year. (1)

## Effortless maintenance

Your Philips device notifies you when to clean your pre-filter and when to replace the filter. This takes less than a minute. The maintenance of the device is effortless to ensure that you always enjoy clean, healthy air.

## Track filter lifetime through

Monitor the lifetime and status of your filter anytime, anywhere with the CleanHome+ app (2). Get alerted when its time to change your filter and easily order a replacement directly through the app (3).

## Weight and dimensions

- Dimensions of packaging (LxWxH): 21\*292\*380 mm
- Dimensions of product (LxWxH): 10\*276\*362 mm
- Weight of product: 0.262 kg
- Weight incl. packaging: 0.557 kg

## Design and finishing

- Color(s): Black

## Replacement

- For Philips air purifier(s): AC2887, AC2889, AC3829

## Performance

- Filters out: Gas and odors

## Maintenance

- Wash under water: No
- Clean with a brush: No
- Clean with chemical products: No

\* (1) Recommended lifetime is calculated based on the Philips users' average usage time and the WHO urban outdoor pollution level data. Actual lifetime is impacted by usage environments and frequencies.

\* (2) Only applicable for selected models with connectivity

\* (3) Only applicable in those countries where the Philips shop is available

\* (4) NanoProtect HEPA filter material provides lower air flow resistance than the material from a HEPA H13 filter, enabling a Philips air purifier with NanoProtect to deliver a higher Clean Air Delivery Rate (CADR) than with an equivalently-sized certified HEPA H13 filter

\* (5) From the air which passes through the filter, tested with NaCl aerosol by iUTA according to DIN71460-1.

\* (6) Contingent on the filter being used with AC1711 or 1715 Philips purifier

\* (7) Microbial Reduction Rate Test conducted at Airmid Health group Ltd. tested in a 28.5m<sup>3</sup> test chamber contaminated with airborne influenza A(H1N1).

\* (8) Microbial Reduction Rate Test at external lab, in a test chamber contaminated with avian coronavirus (IBV) aerosols, with Philips HEPA NanoProtect filter.
