Extra filter

XC8049/01

Complete house clean.

Longest lasting maximum power*.

Clean your entire home with maximum power on a single charge with the Philips Cordless Vacuum 8000 series. It's the only rechargeable, high-power stick vacuum that cleans more than 125 m² in one charge*, thanks to its 360° suction nozzle.

Full house cleaning with maximum power

- Longest-lasting turbo mode covers over 125 m² on one charge
- Lithium-ion battery lasts up to 70 minutes

360° suction nozzle captures more from all sides

- 360° suction nozzle captures up to 99.7% of dust and dirt*
- 360° suction nozzle reveals hidden dust with LEDs lights

Uninterrupted, effective cleaning

- PowerCyclone 10 maintains stronger performance for longer
- PowerBlade digital motor, easily controlled by Smart Display
- Integrated crevice tool and brush, plus extra accessories
- Full reach everywhere, even under low furniture

PHILIPS

Highlights

Turbo Runtime

If you want to have the best performance, you will always use your cleaning device in the MAX setting. In a cordless vacuum cleaner, it is not always possible, since the runtime in TURBO will run out fast. What if you could have a cordless vacuum cleaner that will last enough to cover your full house? Thanks to the longest MAX* performance runtime in any stick, with the newest generation lithium-ion batteries, you can clean more than 125 m² on a single charge.

Up to 70 min runtime

Different needs require different options. Our durable and long-lasting 25.2 V lithium-ion batteries will give you up to 70 minutes cleaning time in eco mode, 35 minutes in normal mode and 28 minutes in turbo mode, before you need to recharge.

360° suction nozzle

When you clean, you always want to be sure that everything that is on the floor will be

picked up by your device in one go, without passing on the same surface more than once. The universal 360° suction nozzle captures up to 99.7% of dust and dirt in each stroke, leaving nothing on the floor! Thanks to its patented 360° suction technology, it picks up more dust and dirt from all sides of the nozzle, making all your movements count!

LED Nozzle

What if we told you that your floor is full of hidden dust and dirt? Most of the dirt on the floor is not visible with the human eyes. Now, dust, fluff, hair and crumbs are easy to spot and capture, due to the LED lights in the nozzle. LEDs in the nozzle reveal hidden dust and dirt, to help you cleaning everywhere at any moment.

PowerCyclone 10

Philips PowerCyclone 10 is our latest bagless technology, now incorporated in a cordless vacuum cleaner. PowerCyclone 10 will maintain stronger suction for longer, with 30% higher efficiency.

Easy control of the motor

PowerBlade digital motor generates extreme airspeed enabling the nozzle to pick more dust and dirt from all sides. Thanks to the Smart Digital Display, you can always control the motor and adjust its speed to your needs! Our Smart Digital Display will also show you when the filter needs to be cleaned. The filter cleaning indicator will help you take care of the maintenance of the product, always ensuring the highest performance.

Accessories

Different surfaces require different nozzles and accessories. In Philips sticks, accessories are easy to use and always at hand with one click, like the small crevice integrated in the handheld and the brush attachment integrated in the tube. For any extra needs, there is the mini turbo brush ideal for removing pet hair and the extra-long crevice tool for hard-to-reach areas.

Specifications

Nozzles and accessories

- Standard nozzle: 360° suction nozzle
- Accessories included: Crevice tool, Integrated brush, 2-in-1 brush/crevice tool, Extra filter, Extension hose
- Additional nozzle: Mini turbo brush

Design

- Colour: Azur

Weight and dimensions

- Dimensions of product (LxWxH): 1170 x 260 x 220 mm
- Weight of product: 2.7 kg

Sustainability

- Packaging: > 90% recycled materials
- User manual: 100% recycled paper

Performance

- Battery type: Li-Ion
- Sound power level: 84 dB
- Battery voltage: 25.2 V
- Charging time: 5 hour(s)
- Runtime: 70 min
- Airflow (max): 1100 l/min

Filtration

- Dust capacity: 0.6 L
- Filter system: 3 stage cyclonic action
