Sonic electric toothbrush

HX3661/43

# Highlights

### Advanced Sonicare Technology

Powerful bristle vibrations drive microbubbles deep between your teeth and along your gum line for a refreshing experience. You will get two month's worth of manual brushing in just 2 minutes.\*\* 31000 brush strokes per minute gently clean your teeth, break up plaque, and sweep it away for an exceptional daily clean.

### Removes plaque 3x better\*

The Sonicare electric toothbrush with advanced sonicare technology is clinically proven to remove plaque up to 3X better\* than a manual toothbrush. It removes plaque from your teeth and along the gum line while protecting your gums.

### Protects your gums

Built-in pressure sensor automatically detects pressure you apply, warns you, and reduces the toothbrush vibrations automatically to help protect your gums. The toothbrush will make a pulsing sound as a reminder to ease off the pressure. 7 out of 10 people found this feature helped them become better brushers.

### SmartTimer and QuadPacer

2 minute SmartTimer and 30-second QuadPacer guide you to brush for the recommended time in all areas of your mouth to ensure a complete clean.

### 2 intensity settings

Switch between 2 intensity settings to make the brushing session comfortable for you.

### BrushSync replacement reminder

All brush heads wear out over time, so you'll want to keep an eye on yours to make sure you're still getting a great clean. Our BrushSync technology tracks how long you've been using your brush head for, and how hard you've been brushing. The BrushSync replacement reminder on your handle and a short beep gives you a heads up when it's time to replace it.

### Easy-Start

Our Easy-Start program gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

### Long lasting battery life

Battery life lasts up to 14 days so you can go long periods without charging.
