- Use less. Reuse more
- Switch between 2 intensity settings

Optimize your brushing

- Optimize your brushing with SmarTimer and QuadPacer

Easy transition to Sonicare

- Easy-Start to ease the transition

Protects your gums

- Built-in pressure sensor protects your teeth & gums

Provides superior clean

- Up to 3x better plaque removal vs a manual toothbrush*
- Our unique technology brings you a powerful yet gentle clean

Highlights

Advanced Sonicare Technology

Powerful bristle vibrations drive microbubbles deep between your teeth and along your gum line for a refreshing experience. You will get two month's worth of manual brushing in just 2 minutes.** 31000 brush strokes per minute gently clean your teeth, break up plaque, and sweep it away for an exceptional daily clean.

Removes plaque 3x better*

The Sonicare electric toothbrush with advanced sonicare technology is clinically proven to remove plaque up to 3X better* than a manual toothbrush. It removes plaque from your teeth and along the gum line while protecting your gums.

Protects your gums

Built-in pressure sensor automatically detects pressure you apply, warns you, and reduces the toothbrush vibrations automatically to help

protect your gums. The toothbrush will make a pulsing sound as a reminder to ease off the pressure. 7 out of 10 people found this feature helped them become better brushers.

SmartTimer and QuadPacer

2 minute SmartTimer and 30-second QuadPacer guide you to brush for the recommended time in all areas of your mouth to ensure a complete clean.

2 intensity settings

Switch between 2 intensity settings to make the brushing session comfortable for you.

BrushSync replacement reminder

All brush heads wear out over time, so you'll want to keep an eye on yours to make sure you're still getting a great clean. Our BrushSync technology tracks how long you've been using your brush head for, and how hard

you've been brushing. The BrushSync replacement reminder on your handle and a short beep gives you a heads up when it's time to replace it.

Easy-Start

Our Easy-Start program gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

Long lasting battery life

Battery life lasts up to 14 days so you can go long periods without charging.

Goodbye adapter. Hello USB.

Power adapters may seem small, but added together, their plastics make a huge impact on the environment. By switching to USB charger in our Philips Sonicare 1000-4000 Series alone, we can use up to 189,210 kg less plastic every 4 years. That's powerful, right?

Specifications

Design and finishing

Color: White

Power

Voltage: DC5V

Technical specifications

Battery: Rechargeable

Operating time (full to empty): 14 days*****
