Highlights

Bean to cup system

It means that whole coffee beans are freshly ground and directly processed for each and every beverage.

Double shot

With the double shot it is easy to serve 2 espresso's at a time.

5 step adjustable grinders

Different coffee blends require different levels of granularity for the full flavor to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full bodied espresso, to the coarsest, for a lighter coffee.

Compact design

With this compact design, the full automatic espresso fits in every kitchen.

Easy frontal access

All machine elements you need to reach during your day-by-day enjoyment (water, coffeebeans and coffee grounds container, drip tray, removable brewing group) are completely independent and reachable either from the front or from the top.

Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easily cleaning by rinsing under the tap ensuring maximum hygiene.
