AVENT

Classic+ baby bottle

1 Bottle

9oz/260ml

Slow flow nipple

1m+

SCF563/10

Clinically proven to reduce colic and discomfort*

Designed for uninterrupted feeding

Our Classic+ bottle's Airflex venting system and textured teat is designed to minimize feeding interruptions and discomfort. With its integrated anti-colic valve, air is vented into the bottle and away from the baby's tummy.

Other benefits

- Different teat flow rates available
- This bottle is BPA free

Clinically proven to reduce colic and discomfort*

- Anti-colic valve proven to reduce colic*
- 60% less fussing at night*
- Teat shape designed for secure latch
- Ribbed texture prevents collapse for uninterrupted feeding

Easy to use, clean and assemble

- Leak-free design

Highlights

Less colic

Our anti-colic valve is designed to keep air away from your baby's tummy to reduce colic and discomfort. As your baby feeds, the valve integrated into the teat flexes to allow air into the bottle to prevent vacuum build up and vents it towards the back of the bottle. It keeps air in the bottle and away from baby's tummy to help reduce colic and discomfort.

Less fussing

Philips Avent Anti-colic bottle reduces fussing. Babies fed with Philips Avent Anti-colic bottles experienced 60% less fussing at night, than babies fed with a competitor's anti-colic bottle.*

Uninterrupted feeding

The teat shape allows secure latch and the ribbed texture helps prevent teat collapse for uninterrupted, comfortable feeding.

Secure latch

Teat shape designed for secure latch

Leak-free design

Our Anti-colic bottle is designed to prevent leakage whilst feeding, for a truly enjoyable feeding experience.

BPA free

Philips Avent Anti-colic bottle is made of BPA free material (PP).

Fits your baby's growing needs

The Philips Avent Anti-colic bottle range offers different teat flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All teats are available in twin packs: Newborn, Slow, Medium, Fast and Variable Flow, and Thick feed.

Specifications

Development stages

Stage: 0-12 months

Bottle

Capacity: 9oz/260ml

Material

Bottle: BPA free, Polypropylene

Teat: BPA free, Silicone

What is included

Baby bottle: 1 pcs

Design

Bottle design: Ergonomic shape, Wide neck

Ease of use

Bottle use: Dishwasher & microwave safe, Easy to assemble, Easy to clean, Easy to hold

Functions

Ease of use: easy to clean and assemble, 4 pieces for easy assembly, leak-free design

Teat: Easy latch on, Ribbed texture prevents nipple collapse, Proven anti-colic system

Anti-colic valve: Airflex venting system designed to reduce air ingestion

* At 2 weeks of age, babies fed with a Philips Avent bottle showed less colic, and significantly less fussing at night compared to babies fed with another competitor bottle.
* Teat design proven to prevent teat collapse and associated air ingestion and feeding interruptions.
* What colic is, and how it affects babies? Colic is caused in part by swallowing air while feeding, which creates discomfort in a baby's digestive system. Symptoms include crying and fussing.
