#### Environment

Do not throw away the appliance with the normal household waste at the end of its life, but hand it in an official collection point for recycling. By doing this, you help to preserve the environment.

#### Introduction

The new Philips Ionic Styling Brush helps to make your hair smooth and shiny anytime, anywhere with great brushing experience

This ionic styling brush has built-in ionizer, which generates negative ions and neutralizes positive charge of static electricity. It helps to reduce frizz and bring back shine and smoothness to your hair instantly. Gentle Bristle

All bristles tips are seamless to avoid scrubbing damage on scalp or hair trapping during usage. The special round ball tip has bigger touching surface so that it's more gentle to vulnerable scaln

Optimal 3D Large Cushion

3

correctly.

battery. (Fig. D)

The optimally designed bristle cushion enables better force distribution and follows the contours of the head naturally for more convenience and comfort.

Ergonomic Shape Brush The seamless and ergonimically curved shell fits in women's

hand perfectly, ensuring great handling experience Detachable Bristle Cushion

Bristle cushion can be easily detached so that you may clean it with water regularly to keep bristle clean.

### Install and detach the brush cushion

- (Fig.C.) To remove the brush cushion (①), push the release button (②) to detach it. 2 (Fig.E.) To install the brush cushion (1), press it down into the brush body, you will hear a "click" if it is installed
- Install and remove the battery The ionic styling brush runs on one 1.5V AAA alkaline

We provide with one 1.5V AAA battery

- 1 To remove the battery compartment cover, pull it off the
- appliance 2 Put the battery in the battery holder or remove the
- pattery out of the compartment. 3 Push the battery compartment cover back onto the

### appliance ('click'). Note

- Make sure that the + and poles of the battery point in
- sure that your hands are dry when you insert the
- battery.

  To avoid damage due to battery leakage. Remove the battery if you are not going to use the appliance for a
- Do not leave empty battery in the appliance

### Brush your hair (Fig.B)

- 1 Turn on the ion styling brush by sliding the power on/off witch ( 6 ) to O
- → The power-on indicator ( ④ ) lights up.
- → When the appliance is powered on, ions are automatically and continuously released, reducing frizz and providing additional shine
- → You may hear a sizzling sound. It's commom because it is caused by the ion generator.
- 2 Brush softly your hair from the roots to the ends. Repeat this step several times for smoother results. 3 Switch to | to switch off the appliance.
- → You may hear a sizzling sound. It's common because the ions are not released fully.
- 1 You can use a damp cloth to clean the brush body (3) 2 To clean the brush cushion ( 1 ):
- Use your fingers to remove the dust or hair on the
- · Detach the brush cushion from the brush body and
- rinse it under tap water (Fig. F)

### Note

- Make sure the brush cushion is completely dried
- Make sure the brush cushion is completely dried before re-attaching to the brush body. Never use corrosive liquid to clean the brush cushion as it may cause damage to the product. It is recommended to use household cleanser to clean the brush cushion if needed.
- 3 Keep it in a safe and dry place or put it in your makeup
- Tine & Tricks 1 The ionic brush performs better when the hair is slightly
- 2 If you wish to use the brush after washing your hair, dry
- your hair until 70% dry. Do not over dry your hair because it may affect the result.

  3 Comb your hair slowly and repeatedly from the root until
- your hair is smooth. The time to comb varies according to your hair type and length.
- 4 It is not easy to observe the effect if
- you have short or natural curly hair. your hair is easy to curl.
- your hair condition is too dry or damaged. you have straightening perm within 3 to 4 months.
- you have some short newly grown hair
- 5 Apply leave in hair conditioner to your hair after brushing for best result
