# PHILIPS

Congratulations on your purchase, and welcome to Philips! To fully benefit from the support that Philips offers, register your product at [www.philips.com/welcome](http://www.philips.com/welcome).

## 1 Important

Read this user manual carefully before you use the appliance and keep it for future reference.

- **WARNING:** Do not use this appliance near water.
- When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a risk, even when the appliance is switched off.
- **WARNING:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- Do not insert metal objects into the air grilles to avoid electric shock.
- Never block the air grilles.
- Before you connect the appliance, ensure that the voltage indicated on the appliance corresponds to the local power voltage.
- Do not use the appliance for any other purpose than described in this manual.
- Do not use the appliance on artificial hair.
- When the appliance is connected to the power, never leave it unattended.
- Always unplug the appliance after use.
- Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such accessories or parts, your guarantee becomes invalid.
- Do not wind the mains cord round the appliance.
- If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- For additional protection, we advise you to install a residual current device (RCD) in the electrical circuit that supplies the bathroom. This RCD must have a rated residual operating current not higher than 30mA. Ask your installer for advice.
- If the appliance overheats, it switches off automatically. Unplug the appliance and let it cool down for a few minutes. Before you switch the appliance on again, check the grilles to make sure they are not blocked by fluff, hair, etc.

Noise Level:  $L_c = 80 \text{ db(A)}$

---

## Electromagnetic fields (EMF)

This appliance complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user manual, the appliance is safe to use based on scientific evidence available today.

---

## Environment

Do not throw away the appliance with the normal household waste at the end of its life, but hand it in at an official collection point for recycling. By doing this, you help to preserve the environment.

## 2 Dry your hair

- 1 Connect the plug to a power supply socket.
- For precise drying, attach the concentrator (①) onto the hairdryer (③). To disconnect, pull it off the hairdryer.
  - To straighten your hair while you dry it, attach the Straightening attachment (②) onto the hairdryer (③).

- ↳ To disconnect, press both release buttons (④) simultaneously and pull it off the hairdryer.
- 2 Adjust the airflow switch (⑦) to **I** for gentle airflow and styling, or **II** for strong airflow and fast drying.
  - The ion function activates when an airflow is selected. The function provides additional shine and reduces frizz.
    - ↳ When the function is on, a special odor may be smelt. It is normal and caused by the ions which are generated.
- 3 Adjust the temperature switch (⑧) to ☞ for hot airflow, ☜ for warm airflow, or ● for cool airflow. Press the cool shot button (⑨) for cool airflow to fix your style.

#### with the Straightening attachment:

**Note:** For optimum care, the operating temperature of the hairdryer is limited when the straightening attachment is attached.

- 1 Comb your hair and take a section for straightening.
- 2 Put the tips of the straightening attachment on your scalp at the roots of the lock to catch the hair in the comb.
- 3 Pull the straightening attachment downwards through the hair.
  - Note:** Always hold the tip of the hair when you pull the straightening attachment through it.
    - ↳ The pivoting head optimally guides the hair through the straightening attachment.
    - ↳ The flocked area at the top of the straightening attachment adds shine to the hair after the comb has straightened it.
- 4 Repeat steps 2 to 3 with other locks until you have straightened and dried all your hair.

#### After use:

- 1 Switch off the appliance and unplug it.
- 2 Place it on a heat-resistant surface until it cools down.
- 3 Take the air inlet grille (⑤) off the appliance to remove hair and dust.
- 4 Clean the appliance by damp cloth.
- 5 Keep it in a safe and dry place, free of dust. You can also hang it with the hanging loop (⑥).

## 3 Guarantee and service

If you need information or if you have a problem, please visit the Philips website at [www.philips.com](http://www.philips.com) or contact the Philips Customer Care Centre in your country (you find its phone number in the worldwide guarantee leaflet). If there is no Consumer Care Centre in your country, go to your local Philips dealer.
